NA and NP	Artichoke, globe (immature flower head)		

PERU, Republic of

ALL	<i>Allium</i> spp. Artichoke, globe (immature flower head) ← Arugula (leaf, stem) Asparagus ¹ Banana (fruit, leaf) (no permit), p. 2.8 Basil (leaf, stem) Brassica, spp. Carrot (root) Cassava Chervil (leaf, stem) Chicory (leaf) Cilantro	Corn, green Cornsalad (whole plant) Dill (above ground parts) Durian Ginger root Grape ^{3,4} , T107-c Lambsquarters (above ground parts) Lemongrass (leaf, stem) Lettuce Mangoes ⁵ Mustard greens (leaf) Oregano (leaf, stem)	Palm heart Parsley (leaf, stem) Pigeon pea (shelled) Pineapple (prohibited into Hawaii) Radicchio (leaf) Snow pea (pod or shelled) Strawberry Swiss chard (leaf and stem) Thyme (above ground parts) Watercress Yam, T101-f-3
NA	< Artichoke, Jerusalem Bean ² (pod or shelled) Blueberry (fruit), T101-i-1-1	Cacao bean pod Celery Chickpea	Okra, (pod), p. 2.29 Pea (pod or shelled)
SAG	Okra, (pod), T101-p-2		

¹ **Commercial shipments** must be accompanied by a phytosanitary certificate declaring either: (1) The asparagus in the shipment is white, or (2) A 600 stem representative sample has been inspected and found to be free of Noctuidae eggs and *Copitarsia* larvae and adults. Inspect the shipment for pests. If a phytosanitary certificate is absent, require T101-b-1. For shipments in **passenger baggage**, do **not** refuse entry for lack of a phytosanitary certificate. However, thoroughly inspect the asparagus for pests. (This change takes effect 07/09/2001)

² If *Cydia fabivora*, *Epinotia aporema*, or *Maruca testulalis* is found, go to page 2.27 for the correct regulatory action to take.

³ Fruits receiving cold treatment may enter at these additional ports: Gulfport, MS; Seattle, WA; and Wilmington, NC.

⁴ If the prescribed refrigeration period is met upon arrival, the treated commodity may enter at any port of entry in the U.S. staffed by PPQ. However, if the prescribed refrigeration period is **unmet** upon arrival, then the commodity may enter only at a North Atlantic Port, Gulfport, MS; Seattle, WA; or Wilmington, NC.

⁵ Mangoes must be treated with a hot water dip at an APHIS approved facility in Peru. Each box must be marked with the statement, "APHIS-USDA TREATED WITH HOT WATER." The shipment must be accompanied by the original copy of the PPQ Form 203 completed and signed by the APHIS officer on site in Peru.
